### DESCRIPTION

SCHORL is a low safety shoe inspired by the trail universe. Its upper made of Oxford polyester provides breathability and durability. The front, sides and back reinforcements in KPU increase long lastingness and is suitable to users working squatting or kneeling. Reflective stripes improve safety of people working at night. Metal free, this shoe features a composite toe-cap and a textile anti-penetration sole that bring better flexibility and better thermal insulation than steel shoes. The nitrile rubber clitted outsole and polyurethane midsole combine the advantages of both materials: comfort and resistance. SCHORL suits the requirements of standard indoor and outdoor uses.

### SECTORS

Infrastructure, building industry

Construction - finishing work

Transport (excluding manufacturing) and logistics

Services and distribution
