

## WELDING GLOVES

Kat. II

Code	Size	Package	Ilość w opak.		
L270311K	11 (2XL)	blister	1 pair on blister	x	12/120

### INFORMATION

- ❑ MATERIAL: split cowhide, cotton
- ❑ Glove length 35 cm. The grip part made from a single leather piece. High comfort of work and improved thermal insulation thanks to the inner lining. Non-flammable thread on the seams increases glove resistance to heat. High resistance to chafing, tearing and piercing (resistance level 4) . High resistance to flame, convection heat and small splinters of melted metal (resistance level 4). Application: welding.
- ❑ NORM: EN 420, EN 407, EN 388, EN12477-A
